

# Menu Description:

**Describe what you plan to do under each option of the Main Menu.**

## Option 1 – Animation/Game:

### Rhythm game:

Notes come from the right side of the screen and move left in three lanes. On the left side of the screen is a trumpet which the notes pass over. When a note passes over one of the trumpets' 3 valves the player must press the corresponding key on their keyboard to play the note. Points are awarded based on the player's accuracy and timing. In addition, a message is shown based on the timing (miss, bad, good, perfect!) and the player's score is shown on the top of the screen. A combo system could give bonus points for consecutive notes. At the end of the song we award a grade/stars based on their score.

## Option 2 – Lesson on the topic:

### Music - Trumpet:

This lesson will teach basic music skills such as theory and notation. We will cover notes and octaves, beat and time, and symbols. Also, the lesson will teach the player how to play our game and have a focus on how to play the trumpet
